

# Heyplast N 60 Z

## Specialty Granulated Natural Rubber

### Description

Heyplast N 60 Z is a natural rubber in the form of fine granules. It contains about 3% zinc stearate as a partitioning agent.

### End Use

Main applications are adhesives, pressure sensitive tapes, coatings, binder for fabrics, and twin-scroll extruder compounds.

### Features

- Dissolved easily in the normal solvents used for natural rubber
- Very uniform quality
- Residue on 4 mm sieve max. 15%

### Packing

- Cartons of 25 kg net weight
- 18 cartons per crate (450 kg net / 510 kg gross)

### Storage Guidelines

Prevent higher temperature, humidity, sunlight and pressure on the cartons, as this may paste together the granules to blocks.

### Technical Specifications

Property	Unit	Target
Mooney Viscosity*	ML <sub>1</sub>	60 +/- 5
Ash Content	%	1.00 max
Volatile Content	%	0.80 max

\* ML 1+4 (100°C)

Note: The technical data listed in this publication are typical values. Therefore, there may be a slight differences between the elements of a supplied product and the data listed above.
